Department of Planning (DoP) - Grant Agreement

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a grant agreement with the State of Maryland Department of Natural Resources Critical Area Commission. The period of the grant agreement is July 1, 2013 through June 30, 2014.

AMOUNT OF MONEY AND SOURCE:

\$11,000.00 - 5000-507414-1875-517600-600000

BACKGROUND/EXPLANATION:

This grant agreement will extend the State's support for the City's Critical Area Management Program. The State has provided support for this project since 1988 and there is no local match required. The funds will be used to help offset the operating costs incurred by the DoP in ensuring the City's compliance with the State Chesapeake Bay Critical Area Protection Law.

Department of Audits - Expenditures of Funds

ACTION REQUESTED OF B/E:

The Board is requested to approve an expenditure of funds to pay the Association of Government Accountants (AGA). The expenditure is for training on May 8, 2013.

AMOUNT OF MONEY AND SOURCE:

\$ 3,900.00 - 1001-000000-1310-157800-603020

BACKGROUND/EXPLANATION:

These expenditures of funds will pay for the registration of 30 auditors to attend a one-day fraud seminar sponsored by the AGA on May 8, 2013.

Government Audit Standards require that each auditor obtain 80 hours of CPE every two years. The foregoing program is part of the Department's scheduled training for this year. The average cost per staff training hour will be approximately \$20.00, which is below the industry average in relation to other training of this nature.

102,645.00 - Air to Air Combat, LLC
\$360,260.00 - 9950-902416-9506-900020-704046

BACKGROUND/EXPLANATION:

This expenditure of funds will pay Dolphin Associates, Inc. and Air to Air Combat, LLC for relocation expenses and reestablishment allowances.

On December 8, 2010, the Board approved the Standard Highway Option to purchase the fee simple interest in 2800 Hawkins Point Road for use as right-of-way and storm water management for the proposed Department of Transportation Project No. TR-00073. The DGS has secured estimates for relocation assistance, as required, to be in compliance with the requirements of the Uniform Relocation Act and Real Property Acquisition Policies Act of 1970, as amended.

Dolphin Associates, Inc. and Air to Air Combat, LLC are the tenants of the property located at 2800 Hawkins Point Road. An estimate has been obtained from T.F. Hearn & Company for relocation expenses and reestablishment allowances for Dolphin Associates, Inc. and Air to Air Combat, LLC.

Department of Recreation and Parks - City Funding Agreement

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a City funding agreement with the Cal Ripken, Sr. Foundation, Inc. (Foundation). The period of the agreement is effective upon Board approval and will end upon final acceptance of the Project by the City.

AMOUNT OF MONEY AND SOURCE:

\$1,400,000.00 - 9938-906888-9474-900000-706063

BACKGROUND/EXPLANATION:

The Foundation was founded in 2001 to help build character and teach critical life lessons to disadvantaged young people, living in America's most distressed communities, through baseball and softball themed programs. The Foundation is collaborating with the Department to design and facilitate the creation of a Cal Ripken, Sr. Foundation Youth Development Park as part of the City's Park Heights Master Plan. This multipurpose, synthetic turf, low-maintenance facility is designed to provide a cohesive recreational and educational experience for children, particularly in at-risk communities. The complex is part of a larger seven-acre project to construct two athletic fields and amenities on City property at C.C. Jackson Recreation Center and immediate environs (Project).

As a condition of the Foundation's donation of \$600,000.00 toward the Project, the Foundation requires that it will act as the fiscal agent for funding of the Project and that it will engage its preferred contractor, Henry H. Lewis Contractors, LLC, to perform the work so as to maintain quality/industry standards on the Project, which will be associated with the Ripken name.

The funding agreement provides for funding the construction of the Project by the Foundation's contractor on City park property under the custody of the Department. The total construction cost is estimated at approximately \$2,000,000.00 and the Foundation has agreed to donate \$600,000.00 to the cost of the Project.

AGENDA

BOARD OF ESTIMATES

05/08/2013

Rec. & Parks - cont'd

The balance of \$1,400,000.00 is derived from City funding sources: \$700,000.00 from two State Program Open Space (POS) grants and \$700,000.00 from the State of Maryland Slots revenue appropriated by the City for use in implementing the Park Heights Master Plan. The City's grant of \$1,400,000.00 will be provided to the Foundation solely on a reimbursement basis after the Foundation has expended its donation for the Project, in accordance with the construction estimate, and subject to the Foundation's monthly submission of requisitions. Upon completion of the Project, the improvements become the sole property of the City and available to the Park Heights residents and the public.

The Department hereby certifies that it has provided written notice to the Director of Finance that the requirement for formal advertisement may be dispensed with in accordance with Article VI § 11(e)(i) of the Baltimore City Charter, as the public work provided pursuant to this funding agreement are of such a nature that no advantage will result in seeking, or it is not practicable to obtain, competitive bids. The reasons for this exception include:

1. that in accordance with the City's Park Heights Master Plan, which includes development of a seven-acre community (public) park, the Project creates a unique Astro Turf field sponsored under the Ripken name that will be substantial and beneficial to the taxpayers and the community of Park Heights;
2. that the Foundation has agreed to donate \$600,000.00 to the cost of the Project on the condition that 1) the Foundation act as the fiscal agent for the funding of the project, and 2) the Foundation engage its preferred contractor to perform the work and oversee construction of the Project according to an agreed upon plan so as to maintain quality standards on the Project which will be associated with the Ripken name;

AGENDA

BOARD OF ESTIMATES

3. that the State of Maryland has earmarked \$800,000.00 to the City (of which \$700,000.00 will be expended under the terms of the funding agreement) on the condition that the City partner with the Foundation on the Project, which funding will revert to the State unless it is spent specifically as the State has designated;
4. that upon comparison of the City/its consultant's estimate of the cost of the Project with the cost provided by the Foundation's contractor, the Project is not for the benefit or enrichment of the Foundation or its contractor, but for the best work at the lowest price practicable; and
5. that there is no evidence to suggest that the Project is influenced by favoritism, improvidence, extravagance, fraud, or corruption.

MBE/WBE PARTICIPATION:

The Foundation has signed the commitment to comply with the Minority and Women's Business Enterprise Program of Baltimore City and that it will achieve 9% MBE and 2% WBE.

Pier Lease Agreement

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of the first amendment to the pier lease agreement with Baltimore Harborview Marine Center, LLC.

AMOUNT OF MONEY AND SOURCE:

N/A

BACKGROUND/EXPLANATION:

On August 18, 2010, the Board approved the pier lease agreement with Baltimore Harborview Marine Center, LLC for the use of a marina slip for the development of a landing for the expanded operations of the Water Taxi Harbor Connector.

Subsequent to the execution of that agreement, it was mutually determined by the Department of Transportation, the operator of the Water Taxi Harbor Connector, and the Harborview Marina that the planned location presented operational and safety hazards and that overall the operations of the Water Taxi Harbor Connector would be better served at a different location within the Marina, which will now be on Pierside Drive.

The City will construct ADA access and passenger waiting area improvements and the City will continue to enjoy, in common with other users, access to the Marina area at which the Water Taxi landing is being located, to embark and disembark passengers.

AMOUNT OF MONEY AND SOURCE:

\$881,300.00 - 9950-919011-9508-000000-490358

BACKGROUND/EXPLANATION:

The MDOT/OPCP coordinates statewide planning studies as well as serving as lead for the Department on coordination with local and regional transportation planning organizations.

Under the terms of this bikesharing grant project agreement, the Department will receive grant funds from the MDOT/OPCP to implement Phase I of Baltimore's bike share system, which includes furnishing, installing, and operating a system of bicycle stations throughout the City from which bicycles may be rented on a short-term basis. Health Department - Expenditure of Funds

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize the purchase of client incentive gift cards for the HIV/STD Prevention Program and authorize an expenditure of funds to pay Rite Aid Headquarters, Corp.

AMOUNT OF MONEY AND SOURCE:

\$11,950.00 - 4000-422313-3023-274200-604051
2,390 cards @ \$5.00 ea.

BACKGROUND/EXPLANATION:

The client incentives/gift cards purchased from Rite Aid Headquarters, Corp. will be distributed to help reduce the number of new HIV infections and improve the health of persons living with HIV/AIDS. The staff's ability to attract those encountered to receive counseling and testing on the STD/HIV testing van will be enhanced through the use of incentive cards. T-shirts will be purchased and provided to the outreach team.

The STD/HIV Prevention Program adheres to all policies associated with the usage of incentives and has sufficient procedures in place to address the safeguarding and accountability of incentives purchased.

The Health Department adopted a consolidated policy for the purchase, distribution, and documentation of all incentive cards. The central tenets of this policy account for: 1) a single means of procuring all incentive cards through the Board of Estimates; 2) the documentation of each incentive card and its recipient; 3) a monthly reconciliation for all purchases that account for all distributed and non-distributed cards; and, 4) periodic internal reviews, which are to be shared with the Department of Audits.

Health Department - Grant Agreement

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a grant agreement with the U.S. Environmental Protection Agency (EPA). The period of the grant agreement is October 1, 2012 through September 30, 2014.

AMOUNT OF MONEY AND SOURCE:

\$60,000.00 - 4000-499513-3031-579200-404001

BACKGROUND/EXPLANATION:

The grant will be used for the project titled, Regional Indoor Environments: Reducing Asthma in Baltimore.

The grant will provide funding to improve environmental health outcomes for individuals/families that are disproportionately impacted by indoor environmental health risks.

The grant agreement is late because the EPA had changes in the outcome measures from the Department. The Department needed to first determine if it could make those changes before accepting the funding and the EPA accepted the changes to the outcome measures. The EPA is very eager for the signed grant agreement from the Department. The process took longer than anticipated due to multiple staffing changes within the Office of Chronic Disease Prevention within the Division of Health Promotion and Disease Prevention.

Health Department - Agreements

The Board is requested to approve and authorize execution of the various agreements. The period of the agreement is March 1, 2013 through August 31, 2013, unless otherwise indicated.

1. **MORGAN STATE UNIVERSITY** **\$ 0.00**
(MSU)

The MSU through its Registered Nurse and Family Practitioner Programs will assign various nursing students to the Baltimore City Health Department to gain field experience in public health care.

The primary care field experience authorized by the MSU as part of the education of students in the Registered Nurse and Family Nurse Practitioner Programs will be supervised by a registered nurse and/or physician or nurse practitioner preceptor. The MSU will provide the course description prior to rotation. The period of the agreement is March 1, 2013 through February 28, 2018.

The agreement is late because revisions to the agreement delayed processing.

Department of Real Estate - Report on the Hollywood Diner

ACTION REQUESTED OF B/E:

The Board is requested to **NOTE** receipt of the Report on the Hollywood Diner.

BACKGROUND AND EXPLANATION:

On September 12, 2012, the Board of Estimates approved an 18 month lease with Thomasino's Pizza, Subs, and Pasta, LLC (Thomasino's) at 400 E. Saratoga Street known as the Hollywood Diner. On October 24, 2012, Thomasino's opened for business. The Board requested a report within six months on the status of the student training program, financials, revenue generated, capital improvements made or needed, and a review of land issues for the site. Thomasino's has been in operation for six months and the Department of Real Estate is hereby reporting to the Board on the requested matters:

STUDENT TRAINING PROGRAM:

One of the requirements of the Request for Proposal was the development of a youth training program in the culinary arts field. This requirement was imposed to maintain the original purpose of the Kids Diner (now the Hollywood Diner) which was designed as a vocational training program and not for making a profit for the City of Baltimore.

Thomasino's has established a four-month training program with an emphasis on food services. Since opening in October 2012, Thomasino's has partnered with two Youth Training Programs; YO Baltimore and Chesapeake Center for Youth Development (CCYD). In addition to partnering with the Youth Training Programs, Thomasino's is also working with the State of Maryland Department of Education, Division of Rehabilitation Services and Maryland Unemployment Back to Work Program in an effort to train and help citizens return to the work force. The Department of Real Estate reviewed the submitted training program, observed the students in training, and reviewed written evaluations of the students. The Department of Real Estate obtained feedback from the participating programs on the effectiveness of the training programs. The Maryland Department of Education, Division of Rehabilitation Services, and CCYD stated that the

training program at the Hollywood Diner was doing very well. As of March 31, 2013 the participation is depicted below:

Thomasino's Training Partners	Referred for Training	Currently in Training	Completed Training
YO Baltimore	2	0	2
CCYD	2	2	0
Division of Rehabilitation Svcs	2	1	1

TOTAL	7	3	4

FINANCIAL INFORMATION ON OPERATION (10/24/12 - 3/31/2013):

Thomasino's has been in operation at the Diner for six months. During the period of October 24, 2012 to March 31, 2013, it has reported revenue of \$18,902.57 and expenses of \$24,629.12. For a small start-up business it's not uncommon that full viability is not achieved in the first six months of operation without established financial and marketing resources and support.

It will be a challenge for this business to maintain itself without adequate finances. Thomasino's is commended for its commitment to the original purpose of the "Kids Diner" and its efforts to maintain the operations. The business has applied for grants to support its programming; however, decisions on those applications have not been received as of this report.

CAPITAL IMPROVEMENTS:

No capital improvements have been reported and no capital improvement needs have been identified. However, routine repairs such as replacement of belts for the HVAC system, repairs to the neon sign, and replacement of the refrigerator were performed at the expense of the business. These repairs were necessary for the Hollywood Diner to operate.

Dept. of Real Estate - cont'd

REVIEW OF USE/SALE RESTRICTIONS OF THE DINER AND LAND:

a. RFP:

The RFP offered the Hollywood Diner site for lease. This was in conformance with the original purpose to return the diner to the City of Baltimore to be used for a City vocational program. Throughout its use the diner has been used for vocational programming and has always remained under the ownership of the City. After the review of the response to the RFP, questions were raised about selling the diner instead of leasing. In order to determine if there were any requirements or conditions for the sale of the land or the diner, a review was performed to determine how the land was acquired (i.e., source of funds), and if the donor of the diner placed any restrictions on the future use of the diner.

b. Donation of the Diner to the City:

It was a commonly held belief that the donor of the diner to the City of Baltimore was Baltimore native, Barry Levinson who directed the movie, "The Diner". The Department of Real Estate's research found that the diner was donated to the City by WBAL Radio. The Department researched Board minutes and was unable to locate information specific to the use of the diner after it was donated. Request for information from WBAL on the use or restrictions are pending as of the date of this report.

c. Acquisition of the Land:

The Department of Real Estate reviewed the records maintained by the City of Baltimore's Survey and Records Office/Property Location Section for the site's previous address 307/311 N. Holliday Street (now known as 400 E. Saratoga Street). The records reflect that the site was acquired on June 18, 1970 in fee simple for the Jones Falls Expressway. This site became part of the street bed for I-83. In September 1984 the site was subdivided and designated as Block 1265B Lot 1. This subdivision appears to have been done for the placement of the diner after

Dept. of Real Estate - cont'd

it was donated to City of Baltimore. Federal Highway Administration (FHWA) funds were used for acquisition of the land for I-83. The regulations applicable to FHWA funding require that the land acquired with FHWA funds, if later sold, must be sold for fair market value by the local government, and the revenue from the sale must be used for transportation purposes.

CONCLUSION:

The food business is very complex and the lack of adequate funding or the reliance on personal funds makes the challenge even greater. In consultation with the Department of Real Estate Thomasino's will terminate the lease for convenience in 90 days. The owner of Thomasino's, Mr. White, does so with reluctance but with the commitment to complete the training program for the current students. The training program will conclude on July 15, 2013. The 90-day period will allow Thomasino's adequate time for this purpose and to wind down the operations. The lease provides for termination at the convenience of either party with 90 days written notice.

There is great value in offering productive training plans for the City's youth. Prior history of the diner included City subsidy and contributions from the private sector for the operation of the training programs. The future of the diner as a vocational opportunity for youth will likely require some subsidy and/or grant funding to support its operations.

COURSE DESCRIPTION

The Food Service Training Program prepares students for employment in a wide variety of food service operations to include the following: restaurants, hotels, hospitals, nursing homes, dining establishments, colleges and universities. The types of job titles include but not limited to: Utility worker, Dish room person, Prep Person, Line Server, Bus Person, Salad Maker, Storeroom Person and Sandwich Maker.

The four month course includes both classroom and practical experience. All students are required to rotate through each food service position. This allows the student to gain practical experience cleaning and maintaining the dining room, sweeping and mopping floors, washing dishes, pots and pans, basic food preparation, and serving food on the cafeteria serving line. The students also have classroom instruction on the fundamentals of food service operations.

<u>\$155,650.00</u>			

BACKGROUND/EXPLANATION:

The agreement provides authorization for the continued operation and maintenance of flow gauging stations located within Prettyboy, Loch Raven and Liberty Reservoir Watersheds, Moores Run, and Stony Run in Baltimore City. Because the USGS's fiscal year does not align with the City's fiscal year, payments will need to be made over 2 fiscal years.

The USGS has been under contract to operate the City's Reservoir Stream Gauging Network since 1982. The data collected is used to estimate pollutant loadings and flow to the reservoirs and is vital to the City's Reservoir Management Program.

The Moores Run station is required under the National Pollution Discharge Elimination System Permit program and has been in service since 1995. The station on Stony Run will help the City monitor the effect of sanitary sewer discharges on receiving waters and document improvements to sanitary sewer infrastructure repairs as required by the Consent Decree between the City and U.S. Department of Justice.

Department of Public Works (DPW) - Request for Information
Bureau of Water and Wastewater (BW&WW) for Consultant on Oper-
ational Efficiencies

ACTION REQUESTED OF B/E:

The Board is requested to approve a request for information (RFI) from qualified parties concerning consulting services regarding identifying and implementing enhancements to the operation and maintenance of the water and wastewater system (the Utility) of the City.

AMOUNT OF MONEY AND SOURCE:

N/A

BACKGROUND/EXPLANATION:

Based on internal review of the system's operation conducted over the past year by the BW&WW leadership, a formalized Operating Efficiency Program has been identified.

The major objectives of the DPW in seeking consulting services are to procure the services of a contractor(s) that will:

1. evaluate the BW&WW's current operating processes, reviewing all aspects of the Utility's current responsibilities for potential improvements, but with a particular focus on the areas of energy usage and production opportunities, chemical usage and pricing, customer satisfaction, and labor efficiencies,
2. recommend implementable measures for DPW to improve and/or streamline operating processes, increasing efficiencies and reducing costs,
3. prepare a report summarizing the findings and present analysis and recommendations to the BW&WW and the DPW,

4. support public outreach, legislative initiatives, and/or other processes required to implement recommendations, and
5. work with the BW&WW staff to develop staff capabilities and manage implementation of the recommended initiatives.

Through the issuance of this RFI, the DPW is seeking input from respondents as to their potential interest in participating in the implementation of the program and as to the project delivery method that they would prefer the City to employ. All program delivery methods must maintain existing organizational authority. Input concerning the scope, extent, nature and schedule for the program is also being sought.

The City expects that through the issuance of this RFI and the associated exchanges of the information between the City and potentially interested firms, prior to the commencement of any formal procurement process, the City will be able to obtain useful information regarding private sector participation in the program in an organized and systematic fashion. The City also intends to utilize the RFI process to familiarize the market with the contracting opportunities which are expected to emerge from the program, and to invite comments as to the private sector's requirements and preferences regarding potential participation in the program.

As a result, the structuring of the planned project procurements should be improved through greater understanding of the objectives and requirements of the companies participating in the market of these services.

The City is also aware of the heightened interests of financial firms in providing private financing for public infrastructure. Given the extent of the capital needs of the Utility with the projected \$5,000,000,000.00 costs of the City's capital improvement program, this RFI is also intended to invite input

DPW/BW&WW - cont'd

from financial institutions as to potential private project financing approaches that the City may wish to consider in today's marketplace.

The City, accordingly, invites participation in this RFI process of all private sector firms that may wish to participate in any aspect of the program, whether for any or all of the particular projects under consideration. Such firms are expected to include companies with expertise in the design, construction, operation, maintenance, repair, management, and financing of wastewater and power infrastructure facilities, as well as residuals management and services.

This RFI does not constitute the formal commencement of any procurement process under applicable State law. Participation by interested firms is strictly voluntary, and any information obtained by the City may be freely used in any manner the City deems appropriate. The election not to respond to this RFI will not disqualify or disadvantage any firm in the procurement process for any planned project once the process is formally commenced by the City.

This RFI does not obligate the City in any manner with respect to the program. The respondents will bear all costs relating to their participation in the RFI process, without any reimbursement by the City.

The Board is requested to approve and authorize execution of an agreement with EastBanc Technologies, LLC. The period of the agreement is effective upon Board approval for two months.

The City of Baltimore Development team, a division of MOIT is responsible for developing and maintaining a broad portfolio of applications for agencies and departments including customized applications, third party commercial off the shelf solutions, and Application Programming Interfaces with externally hosted and internally managed resources. Over the past year, the Development team's number of personnel resources has been reduced from 15 to 4 due to circumstances and constraints outside of MOIT's control. The demand for service has remained constant and as such MOIT is faced with the expectation that it will deliver critical services even though it does not have the resources.

Additionally, several of these services have operational or compliance deadlines that if missed, would have a severe impact on the City as a whole. In order to mitigate the severity of these issues, MOIT seeks to temporarily augment its development resources with two senior SharePoint developers, thereby ensuring operational continuity and the ability to meet critical deadlines. EastBanc Technologies, LLC was selected as it is currently satisfactorily providing SharePoint developers on a separate competitively bid contract, and was able to provide additional developers in the timeframe required.

Department of Housing and - Grant Agreement
Community Development

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a grant agreement with the East Baltimore Development, Inc. (EBDI). The period of the grant agreement is effective upon Board approval for one year.

AMOUNT OF MONEY AND SOURCE:

\$1,100,000.00 - 9910-907424-9588

BACKGROUND/EXPLANATION:

The EBDI is managing the redevelopment of an 80-acre site that includes new biotech space, commercial and retail space and over 2,100 units of mixed-income housing. Under the terms of a Land Development and Disposition Agreement (LDDA) approved by the Board on April 22, 2004 and amended on December 9, 2007, the EBDI is charged with providing services associated with acquisition, implementing development and maintaining the Project area. In the LDDA, the City also committed to provide funding to assist the EBDI in developing and maintaining the Project area.

The EBDI is seeking to use \$1,100,000.00 to undertake two activities, of which \$500,000.00 will be used to offset costs associated with stabilizing 50 vacant properties, thereby preserving these properties for redevelopment as homeownership units. The properties are located on preservation blocks including: 1700 block East Chase Street, 1100 block McDonogh Street, 1100 block Rutland Avenue, 1000 block N. Washington Street, and the 800 block North Patterson Park Avenue.

The remaining \$600,000.00 will be provided by the EBDI to TRF Development Partners, Inc. (TRF DP) for redevelopment of six vacant properties in the 1200 block North Broadway and the 1500 block East Biddle Street, specifically: 1510, 1605, East Biddle Street; 1226, 1242, 1246, and 1254 North Broadway.

DHCD - cont'd

In January 2011, the EBDI and TRF DP formed a partnership for the purpose of applying for Neighborhood Stabilization Program 3 (NSP3) funds from the Maryland Department of Housing and Community Development. The EBDI agreed to serve as the fiscal agent and TRF DP as the developer. All properties under the NSP3 program are developed either as affordable rental or for homeownership.

State applications require that the applicant provide matching funds from sources other than State funds. To meet this requirement the EBDI is providing \$600,000.00 from its existing General Obligation Bond funds to TRF DP for the Project. Under the terms of the grant agreement, funds will be made available to TRF DP only when units are complete and a use and occupancy permit has been made available. Upon completion, properties will be leased to households that meet the NSP3 income guidelines.

MBE/WBE PARTICIPATION:

TRF Development Partners, Inc. has signed a Commitment to Comply with Article 5, Subtitle 28 of the Baltimore City Code (2007 ed.) regarding participation by Minority Business Enterprises and Women's Business Enterprises in the Project.

Department of Housing and - Local Government Resolution
Community Development

ACTION REQUESTED OF B/E:

The Board is requested to approve and authorize execution of a local government resolution to approve the application to modify a designated sustainable community to the State of Maryland's Sustainable Communities Program.

AMOUNT OF MONEY AND SOURCE:

N/A

BACKGROUND/EXPLANATION:

In 2010, the Maryland General Assembly approved the Sustainable Communities Act, which is replacing the existing Community Legacy Program. Under the Sustainable Communities Act, all Community Legacy areas are required to be re-certified as a Sustainable Community (SC).

In order to be designated as a Sustainable Community, State Law requires local jurisdictions to submit a Sustainable Communities Plan. The City's Sustainable Communities Plan (SC) was approved by the State in November 2012 and is comprised of approximately 20,308 acres. The Sustainable Communities area includes 3 Arts & Entertainment Districts, the City's 10 designated Main Streets, 5 commercial corridors, 10 designated Healthy Neighborhood Areas, 9 Transit-Oriented Development sites, and 16 Major Redevelopment and Adjoining Development Area.

The approved SC plan also included five revitalization goals and six strategies as outlined below:

Strategy No. 1: Support Main Streets and commercial areas by
by targeting investments in Middle Market
Neighborhoods

Revitalization Goal: Enhance economic competitiveness by improving the City's ability to attract new and expanded businesses, by providing quality services and products that are regionally competitive.

Strategy No. 2: Healthy Neighborhoods

Revitalization Goal: Value communities and neighborhoods by building upon existing strengths, assets and amenities.

Strategy No. 3: Target investment along major transit routes

Revitalization Goal: Support transportation efficiency to improve air quality, promote access to employment opportunities, and increase connections to transit.

Strategy No. 4: Target Investment in Arts and Entertainment Districts

Revitalization Goal: Support and build upon existing cultural assets and strengths; enhance economic competitiveness.

Strategy No. 5: Invest in anchor institutions and major redevelopment areas

Revitalization Goal: Support existing economic and business development around anchor institutions; promote access to quality affordable housing developments, increase housing choices through redevelopment of quality mixed-income housing; and, utilize targeted code enforcement to encourage existing owners to maintain and occupy properties.

Strategy No. 6: Targeting greening strategies in distressed areas near strong housing markets

Revitalization Goal: Enhance communities and remove blighted and unsafe structures to promote market-based efforts, target demolition in areas as future holding strategies or to provide access for urban agriculture.

Under State Law, the City can request modifications to its approved Sustainable Community Plan annually. In the modification, the City is seeking to add a total of 13 new Sustainable Community areas and one new strategy. These changes are being proposed as Modified Area 1 and Modified Area 2.

AGENDA

BOARD OF ESTIMATES

Modified Area 1 proposes adding the following two locations to the approved Sustainable Community Plan:

1. The Mount Winans Community (Supports Strategy No. 5 Invest in anchor institutions and major redevelopment areas and Strategy No. 6 Target greening strategies in distressed areas near strong housing markets.)
2. East Fayette Street between President Street and Broadway. (Supports Strategy No. 1 Support Main Streets and commercial areas by targeting investments in Middle Market Neighborhoods.)

Modified Area 2 proposes adding the following 11 locations and one new strategy to the approved Sustainable Community Plan:

1. Charles Street Corridor: The east half of the Charles Street commercial district from Pratt Street north to Franklin Street. (Supports Strategy No. 1: Support Main Streets and commercial areas by targeting investments in Middle Market neighborhoods.)
2. Central Business District: Guilford to President Street: The area of Downtown Baltimore east of Charles Street to President Street from Pratt Street north to Franklin Street. (Supports Strategy No. 1: Support Main Streets and commercial areas by targeting investments in Middle Market Neighborhoods.)
3. Mary Harvin Transformation Center: The area bounded by Sinclair Avenue, North Wolfe Street and North Gay Street. (Supports Strategy No. 5: Support investments in anchor institutions and major redevelopment areas.)
